DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This building is two stories high and three bays wide. The facade is of brick laid in running bond. The first floors features two freight entrances of corrugated steel and at least one flat double hung window with 1/1 lights. These elements are roughly symmetrical.

The second story is punctuated by two groupings of two flat windows with 1/1 lights with brick lintels and shared stone sills at either end of the facade. Between the two groupings the facade has been fractured to accomodate a large opening filled with glass blocks arranged in a rectangular plane. The shadow of a gabled projection remains above this plane. The cornice has been stripped away to reveal the rude brickwork underneath. The whole is capped by a flat roof.
